6505 Bankhead Highway West
Douglasville, Georgia**

The Performance Track program recognizes and drives environmental excellence by encouraging facilities with strong environmental records to go above and beyond their legal requirements. Members typically set four public, measurable goals to improve the quality of our nation's air, water, and land. Members include major corporations, small businesses, and public facilities that are steering a course toward environmental excellence.

Program information, summary of member benefits, application guidelines, and a complete listing of facilities that are Performance Track members can be found at: <http://www.epa.gov/performancetrack/> .
