

# NSSGA®

NATIONAL STONE, SAND  
& GRAVEL ASSOCIATION

## WHY JOIN NSSGA AS A PULVERIZED MINERALS DIVISION MEMBER?

The Pulverized Minerals Division (PMD) of the National Stone, Sand & Gravel Association (NSSGA) has successfully represented the interests of its members for 50 years. PMD promotes continuous improvement in the manufacturing process, product marketing, and sales of finely ground (minus 100 mesh) limestone and other industrial mineral products.

*PMD offers invaluable information via annual meetings, news and networking opportunities with companies facing some of the same types of challenges we face. PMD provides specific, timely and relevant information that is useful for our business.*

GREG GOULD, NALC & MIDWEST  
CALCIUM CARBONATES

- Exclusive to PMD members, you receive the premier source of ground mineral industry information, the electronic *PMD NewsLine*, providing business, regulatory & legislative intelligence
- An Annual Meeting featuring plant tours, the latest on regulations, products and standards affecting manufacturers of finely ground mineral products
- Additional industry news via Digital Aggregate and the Stone, Sand & Gravel REVIEW magazine
- Workshops, seminars and several NSSGA events including AGG1 Academy & Expo

NSSGA is here to help you deal with many issues the federal government throws at you; access to experts in environment, health and safety, and other advocates that are regulatory experts and just a phone call away.
