

"A World Leader in Customized Dredging Solutions"

FOR IMMEDIATE RELEASE

Nick "Nicky" Giarratano Named VP of Manufacturing for DSC Dredge, LLC.

RESERVE, LOUISIANA

Nick "Nicky" Giarratano currently Vice President of Manufacturing of DSC Dredge, LLC was promoted after serving more than twenty-four (24) years in various roles in both Engineering and Manufacturing. Nicky first started his career at DSC drafting and designing dredging equipment but quickly moved up the ranks to Project Manager and his latter post of Production Manager, to most recent Director of Production where he has significantly contributed and fostered an integrated culture throughout DSC's three manufacturing facilities. Over the past two years, Nicky has stepped up to distinguish his leadership position within DSC while continuing to focus on various personal and professional developmental opportunities.

In this new role Nicky will oversee the Manufacturing operations and logistics for all DSC properties, including both the overall facilities and teams in Reserve, LA, Poplarville, MS and Greenbush, MI. His wide range of Manufacturing and Production knowledge continues to serve DSC well as he reports directly to DSC's President and Chief Executive Officer, Bob Wetta.

"He was a natural choice; Nicky has always been a vital part of our management team and key to the success in the company. This promotion recognizes his expertise and efforts in achieving the company objectives," said Bob Wetta, President and CEO.

In response to his promotion, Nicky noted he has always liked the feeling of hands-on work, to be able to look back at the end of the day and see something that was created from start to finish. "It's a real privilege and honor to be part of the leadership team of a company that's constantly looking forward and planning for growth and look forward to the challenges that comes."

"Nicky has been instrumental in helping us to grow all our facilities, training and managing our production crew. He constantly sets the standards between what's expected and what can be delivered in business," said Bill Wetta, Senior Vice President of Product Development and Chief Technology Officer.

DSC is a global leader in the dredge manufacturing industry, engineering superior customized dredging solutions to meet specific application needs, while continuing to exceed customer expectations. DSC Dredge designs and manufactures high quality, durable cutter suction dredges. At DSC Dredge, we help customers make THE RIGHT CHOICE. Quality, Innovation, Service, Commitment and Customization are key DSC attributes which explain why customers choose to work with DSC. DSC Dredge operates from

three manufacturing facilities located in Reserve, LA, Poplarville, MS, and Greenbush, MI. For more information about the company and its products, services and customized solutions, please visit www.dscdredge.com and follow us on Social Media.
