

"A World Leader in Customized Dredging Solutions"

FOR IMMEDIATE RELEASE

DSC's Annual Drededucation Class Expands into a 3-Day Aggregate Training Short Course – 27th – 29th February, 2024

RESERVE, LA - DSC is a leading innovator in dredge manufacturing, committed to pushing the boundaries of excellence in the field. With a history of groundbreaking achievements, DSC continues to set industry standards by delivering cutting-edge solutions and providing industry professionals with invaluable resources and training. After months of planning, DSC officially announces a significant enhancement to its annual Drededucation Class.

Traditionally, its one-day event has now evolved into a comprehensive 3-day Aggregate Training Short Course. Never done to this magnitude in the Aggregate industry this course is set to revolutionize the industry by providing attendees with unparalleled opportunity to engage with renowned experts and speakers who have made significant contributions to the field.

Industry-Specific and Comprehensive Curriculum

DSC's 3-Day Aggregate Training Short Course has been meticulously designed to cater to the unique needs of the dredge manufacturing and aggregate industry. The curriculum will encompass a wide range of critical topics, including Dredge Designs, Screening, Conveyors, Transport Hydraulics, Crushers, Safety, and more.

"Its expansion is a game-changer for professionals in our industry," says Charlie Johnson, Director of Domestic Dredge Sales at DSC Dredge. "Our aim is to provide participants with an understanding of the industry's core concepts and equip them with the knowledge and tools to excel in their roles," he added.

DSC's President and CEO, Bob Wetta, added, "In our industry it's important to empower minds and bring knowledge. At DSC Dredge, we are committed toward pushing the boundaries and charting the way; education is no different."

Meet the Industry Experts

The course will feature dynamic and highly respected experts and speakers who are luminaries in the world of dredge manufacturing and aggregates:

- Charlie Johnson, Director of Domestic Dredge Sales at [DSC Dredge](#).
- Scott Laiche P.E., V.P. of Engineering at [DSC Dredge](#).
- William Wetta P.E., Sr. V.P. of Product Development and CTO at [DSC Dredge](#).
- Mark Krause, Managing Director at [McLanahan](#).
- Scott Gulan, Director of Business Development at [Superior Industries, Inc.](#)
- Jeff Boone, Regional Sales Manager at [Metso Minerals](#).
- Ryan Senter, Director of Sales at [Deister Machine Co.](#), and

- Richard Snoby, Regional Sales Manager at [Stichweh/ Snoby Separation Systems](#).

Professional Development Credits

Upon successful completion of this Short Course, attendees will be rewarded with a valuable 22 hours of Professional Development Credits, a testament to the course's commitment to enhancing professional growth and knowledge.

Event Details

When: February 27th - 29th, 2024 Time: 8:00 AM - 5:00 PM

Where: Omni Royal Orleans, 621 St Louis St, New Orleans, LA 70130

Don't miss this unparalleled opportunity to be part of a transformative learning experience in the world of dredge manufacturing and aggregates.

What Attendees can expect:

Attendees can expect to leave this course more informed, educated and equipped with a transformed perspective, armed with cutting-edge knowledge, and empowered with a newfound sense of industry leadership. They will depart with the confidence to tackle the most complex challenges, implement innovative solutions, and drive their organizations towards unparalleled success. The course's immersive experience will leave them not just as participants but as industry pioneers ready to navigate the ever-evolving waters of dredging and aggregates with precision and expertise.

About DSC

At DSC Dredge, we specialize in customizing dredging equipment to meet the exact requirements of your unique application. DSC employs one of the largest in-house dredge design/engineering team among all North American and most global manufacturers. This fully self-sufficient team encompasses a blend of Mechanical Engineers, Structural Designers and Automation Engineers who are responsible for all aspects of the project from generating fabrication drawings to performing structural analysis and designing dredge hydraulics to programming dredge control systems. Our roots go back to over 30 years as a family-owned and operated dredge manufacturer.

DSC is a global leader in the dredge manufacturing industry, engineering superior customized dredging solutions to meet specific application needs, while continuing to exceed customer expectations. DSC Dredge designs and manufactures high quality, durable cutter suction dredges. At DSC Dredge, we help customers make THE RIGHT CHOICE. Quality, Innovation, Service, Commitment and Customization are key DSC attributes which explain why customers choose to work with DSC. DSC Dredge operates from two manufacturing facilities located in Reserve, LA, and Poplarville, MS. For more information about the company and its products, services and customized solutions, please visit www.dscdredge.com and follow us on Social Media.
