# LIVE WEBINAR SERIES

Live Q&A to Follow

## FAN FUNDAMENTALS - MECHANICAL SELECTION & CONTROL LEVEL 2, MODULE 5

Wednesday, October 25th at 1:00pm CDT

The purpose of this presentation is to educate industry professionals on how air and sound performance testing of industrial fans is performed in an accredited testing laboratory. At the end of this presentation, you will be able to:

- Explain what FEA Analysis is and how it is used in fan design
- Explain coupling/belt drive selection and bearing selection
- Explain how lateral/torsional shaft analysis is used
- Differentiate when to use a VFD control versus a damper
