FOR IMMEDIATE RELEASE

DSC's 3-Day Aggregate Training Short Course 2025 Exceeds Expectations with Knowledge, Networking, and Global Attendance

RESERVE, LOUISIANA – DSC Dredge's 3-Day Aggregate Training Short Course 2025, held February 18-20, in New Orleans has been hailed as an unparalleled success, with a lineup of expert speakers and valuable networking opportunities that exceeded all expectations. The event's focus on cutting-edge industry insights and practical knowledge brought attendees from around the globe, including Nigeria, Mexico, Canada, and across the United States, for three days of learning and networking.

As a recognized leader in knowledge sharing and fostering industry connections, DSC's 3-Day Aggregate Training Short Course 2025 reinforced the company's ongoing dedication to providing exceptional educational experiences. With presentations from some of the most respected experts in the field, attendees gained in-depth insights on topics ranging from dredge designs to conveyors, crushers, mining, vibrations and more.

"The knowledge shared by the speakers exceeded any of my expectations," said Wade Dangler, Business Development Manager, MASABA Inc, "I've definitely walked away with practical tools and strategies that I can immediately apply. The networking alone has been invaluable!"

In addition to the enriching curriculum, attendees had the opportunity to engage in valuable networking, connecting with peers and experts from various sectors of the industry. These interactions, combined with the learning environment, allowed for deepened relationships and discussions on best practices that are essential to future growth.

Plans for the 2026 edition of the DSC's 3-Day Aggregate Training Short Course are already underway, and organizers are committed to making next year's event even more impactful and valuable for attendees.

"We are very happy with the response and success of this year's event," said Mercedes James, Marketing Director at DSC Dredge. "The feedback we've received has been overwhelmingly positive."

A heartfelt thank you is extended to [NSSGA](#) for their partnership and to the sponsors for their support: [MSHA Safety Services](#), [Trimble](#), [Martin Marietta](#), [GeoSonics/Vibra-Tech](#), and [Snoby Separation Systems](#). Their contributions helped make the event possible and ensured that the attendees received the highest quality of content and experience.
